

AMENDMENT(S) TO THE CLAIMS

1. (Currently amended) An article of furniture, comprising:
 - a support having a support surface ~~including a flexible support member having at least one upper segment and at least one lower segment, at least one of said upper segment and said lower segment connected to said support surface;~~
5 ~~a flexible support member having a platelike structure including a plurality of outwardly extending opposed projections, said plurality of outwardly extending opposed projections comprising at least one upper segment and at least one lower segment, at least one of said upper segment and said lower segment being connected to said support surface;~~
 - 10* a plurality of air bladders mounted ~~relative to~~ between said support surface and said ~~flexible support member~~, each ~~said~~ air bladder having expandable foam therein;
at least one fluid line fluidly coupling said air bladders together; and
a single valve fluidly coupled with said at least one fluid line.
2. (Previously amended) The article of claim 1, wherein said at least one fluid line is coupled to said air bladders in one of ~~a~~ parallel connection of said air bladders and ~~a~~ series connection of said air bladders.
3. (Previously amended) The article of claim 2, wherein said at least one fluid line is coupled to said air bladders in ~~a~~ parallel connection of said air bladders.
4. (Original) The article of claim 1, wherein said expandable foam has an expanded state, said expandable foam being characteristically biased toward said expanded state.

5. (Original) The article of claim 4, wherein said single valve is configured to be selectively closed to prevent air from flowing into said air bladders and thereby prevent further biasing of said expandable foam toward said expanded state thereof.

6. (Original) The article of claim 1, wherein said support comprises a seat back, said seat back having a flexible support member attached thereto, said at least one fluid line and said air bladders being mounted between said support surface and said flexible support member.

b1st C
7. (Original) The article of claim 6, wherein said air bladders and said flexible support member are configured for conjunctively providing lumbar support on said seat back.

8. (Original) The article of claim 1, wherein said air bladders are configured to be selectively contoured.

9. (Original) The article of claim 1, wherein said article of furniture is ~~one of~~ a chair, recliner, rocker, couch, sofa, ottoman, stool, desk, keyboard support and wrist pad for use with a keyboard support.

Claims 10-18 (Canceled)

19. (Previously added) The article of claim 1, wherein said support surface further
includes at least one pocket, ~~at least one~~ said lower segment being removably insertable into ~~at~~
~~least one~~ said pocket.

*b1 c
cont*
20. (Previously added) The article of claim 1, wherein ~~at least one~~ said upper segment is
connected to said support surface.

21. (Previously added) The article of claim 20, wherein said support surface further
includes at least one pocket, ~~at least one~~ said lower segment being removably insertable into ~~at~~
~~least one~~ said pocket.
